REQUISITES FOR ADMISSION

INTO THE

ACADEMICAL AND UNDER-GRADUATE DEPARTMENTS OF THE UNIVERSITY.

Applicants for admission into the Freshman Class are required to sustain an approved examination on the Grammars of the English, Greek and Latin Languages; Latin Prosody; Andrews' or Arnold's Exercises; Cæsar's Commentaries; Ovid's Metamorphoses; Virgil's Bucolics, and six Books of his Æneid; Sallust; St. John's Gospel and the Acts in the Greek Testament; Græca Minora, or Greek Reader; Arithmetic; Algebra, through equations of the first degree; Ancient and Modern Geography.

Applicants for a more advanced standing will be examined on all the studies already pursued by the class they wish to join.

The Instructors in the Greek, Latin, and Mathematical Departments have to complain that the applicants for admission are too often deficient in some of their preparatory studies. There seems to be a disposition abroad to diminish the very limited amount of reading that is now required in Greek and Latin. There is also a lack of due preparation in the Grammars, Prosody, and Construction of these Languages, in Grecian and Roman Antiquities, and especially in Ancient and Modern Geography. In the Mathematics more time and practice should be devoted to problems wherein the various rules of Arithmetic are involved with more or less complexity. Unless these suggestions are regarded, Students will be unable to secure the peculiar advantages of an education at the University. For the Instructors, instead of adopting such exercises as will mature the taste and scholarship of their pupils, will be obliged to return to the drilling of the Grammar School without its advantages for ensuring success.

To the teachers who are laboring to promote Classical and Mathematical learning by thorough elementary instruction we are already much indebted. We trust that our obligations to them will be still further increased, for on their efforts we must, in a great measure, depend for success in elevating the standard of Scholarship at the University.
